↑ in response to: [Tony Dunn](#)

Today its March 12th and I don' t see any Presentations?

How long does it take?

These sessions will be posted on March 14th as we are gathering Videos for many of the sessions as well as PPT presentations for download. At that time, accounts from VMworld Europe 2008 registration will be synched with VMworld.com accounts (automatically imported), so please use these username/passwords to login.

thank you for your patience

Hello.

The presentations are on line, BUT only a little part of them.

Where are all of them?

I attended to presentations in many tracks and I need the related documentation.

Regards.

Can not access the session because I don't know my username that I used for VMWorld registration.

It isn't this one ;(

You can search on the people list and see if you can locate it. Zones->Browse->People then you can search for the name. I think the VMworld.com people will also send you it if you request, but they might be busy.

Don't find anything, but if I try to register a new account with my vmworld email address I get an error says "This Email is already used."

Hope the VMWorld team can help me.

I have send an email

There is no file in the TA25 ([Platform Hardware Trends for Virtualization](#)) session. Maybe it is an error. Someone should check it. Thanks.

We are still tracking down presentations from TA23, TA24 and TA25

please check back soon for these

thnx

Hi Luca,

I emailed you access to the presentations after verifying your attendance.

cheers
